**Part III DETAILED ACTION**

**Notice to Applicant(s)**

1. This application has been examined. Claims ... are pending.

***Information Disclosure Statement***

2. The references listed in the Information Disclosure Statement dated 5/5/2000 have been considered by the Examiner and is attached to this Office Action.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 5-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claims 5 and 12 recite the limitation "each virtual printer" in the claim. There is insufficient antecedent basis for this limitation in the claim. Claims 4-11 and 13-18 depend on claims 5 and 12 respectively and are rejected for the same reasons.

Art Unit: 2622

*Claim Rejections - 35 USC § 102*

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

7. Claims 5, 6, 12, and 13 are rejected under 35 U.S.C. 102(e) as being anticipated by Sugiura et al (U. S. 6,047,111).

With respect to claims 5, 6, 12, and 13, Sugiura discloses a method for processing printer errors occurring during processing of a print job in a virtual (logical) printer system (column 3, lines 33-49), configurable with plural print engines (the abstract, lines 3-7), comprising detecting occurrence of an error condition during printing of a print job in one of the print engines (column 8, lines 30-39), and re-routing the remainder of a portion of the job to another print engine in the print system (column 8, lines 30-39).
